leaders in

One to One tuition

Maths Tutoring

Learning Centre **maths tutoring** services cater for both primary and secondary school students.

The Learning Centre qualified maths tutors understand that when it comes to maths, as well as other subjects, the rate of learning is different for every student.

We cater for children struggling to keep pace with their peers, as well as those requiring extension maths.

- Primary students maths tutoring is concentrated on making maths practical and hands on. Fundamental numeracy skills are developed, before student's progress to more complex math problems. By having the time and devotion of a maths tutor, students are able to learn at their own pace.
- Secondary and HSC students are offered **one on one tutoring** sessions in maths at all levels – from general maths to extension II. All our maths tuition is curriculum based. Experienced **maths tutors** focus on exam preparation with practice papers as well as exam strategies.
- Learning Centre staff believe that preparing students thoroughly for exams helps them build confidence in themselves and their abilities. This reduces exam stress and encourages maths success.
- The Learning Centre also help students with preparing for **NAPLAN**, selective school selection as well as **OC** and scholarship exams.

All Learning Centres **maths tutors** are up to date with the curriculum and are experienced teachers. This is why The Learning Centre's "one on one" maths tutoring has a proven record of success.

The Learning Centre **one on one maths tutoring** equips students with the skills and knowledge they need to build their confidence in maths and excel at school.

So whatever level your child is at in maths Remedial to gifted, our dedicated maths tutors are here to help every child succeed in maths.
