

The Learning Centre

leaders in

One to One tuition

English Specific

English is vital to every subject area which is why it is the foundation to learning. With **English tutoring** our tutors will equip your child with the tools they need to gain academic success, not only in English but also in essay writing, exam preparation and other subject areas including the HSC.

We have found that students who find success through our English tutoring are more confident in their studies, excel at school and have greater self-esteem.

Allow your child to experience the success of one on one tutoring.

The Learning Centre offer **English tutoring** for everyone, from preschoolers, primary and secondary school students, HSC students and adults.

Our preschoolers and primary school students benefit from English tutoring that incorporates "Visualization and Verbalization" techniques for language comprehension in order to ensure each child understands what they are reading.

- **"Keys to Reading Program"** - A reading/Writing program for children and adults, covering all aspects of literacy.
- **"Spalding Method"** - A successful phonics based program to develop reading and spelling.
- **"Strategic Reading"**- addresses reading skills through explicit teaching and reading strategies, focusing on reading for meaning. Our enthusiastic and passionate English tutors have the capability to turn non-readers into readers via our individualised intensive reading programs.

For secondary and **HSC students essay writing** is the fundamental skill required for all curriculum based subjects. Our English tutors work to improve student's writing skills in a variety of text types and teach students to analyse, question, develop ideas and plan and construct essay style responses. Our essay writing, exam preparation and HSC tutoring services are all available for secondary students who want to excel and succeed.

English tutoring services also include helping students prepare for NAPLAN, selective school selection and scholarship exams. We believe that preparation builds confidence, reduces stress and encourages success.

We also cater for adults with **adult reading, writing and spelling as well as essay writing**. Adult English tutoring is a great way to improve skills, build new abilities and learn new talents. You are never too young or too old to learn something new.
